

## Assistive Technology Partners

BREAKING BARRIERS, CHANGING LIVES

# Do You Have Students Who Are Not Reading at Grade Level?

Assistive Technology Partners at the University of Colorado at Denver and Health Sciences Center and the Colorado Department of Education are collaborating on a research project to study the effects of technology supports for students who are not reading at grade level. We need teachers of students in the 4th - 6th grades with ILPs (Individualized Literacy Plans) who are reading below grade level, but who do not qualify for special services to participate in this two-year study.

Assistive Technology Partners  
University of Colorado, School of Medicine  
601 E. 18th Avenue, Suite 130  
Denver, Colorado 80203
